EDMONTON BULLETIN, NOV. 13TH, 1939

THE MINISTER'S VISIT.

The visit of a cabinet minister to Edmonton is not such a rare event now as in former years, nevertheless, it is an event of importance. The minister of interior will make his second visit within two years on Wednesday evening. It is to be regretted that he cannot make a longer stay, but it is to be remembered that to put in one evening at Edmonton takes two days time. There are claims upon his attention from every point between the Red River and the Rocky Mountains, which must be honored as far as possible, in addition to the duties of administering the most complicated, and in many ways the most important, department of the government. To spend a long time in each place would not be to fulfil, but to shirk duty.

Fortunately under the present administration of the interior department there are not as many points of dispute between the people and the government as there used to be, and also fortunately when such do arise they can be settled through the ordinary routine of the department. It is no longer necessary to bring political pull to bear on the minister in order that a settler may get justice. But there is another difference between then and now, namely that the minister is now the directing force of his department. This is not the case with all the departments of even the present government—more's the pity. His repeated visits to the west are for the purpose of bringing himself as closely in touch as possible with his particular field of operations. At the same time, as a member of the government—and not by any means its least important member—he is prepared to state and justify the general policy of the government.

The occasion of Mr. Sifton's public address gives all citizens an opportunity to hear and judge for themselves of the merits of the policy of the government of the day, a subject that is of interest to all citizens of a self-governing country. At the same time there will be the opportunity to bring directly to the attention of a member of the government such matters as the circumstances require. Hon. Mr. Sifton's visit will be notable amongst visits of cabinet ministers here in that he will not have to deal with the bridge question.

THE REGINA LEADER.

For some little time past Messrs. N. F. Davin, M. P., and Walter Scott, have been telling what they know of each other through their respective papers, the West and the Leader. The West claims to be conservative and the Leader claims to be liberal. Recently the West accused the editor of the Leader of having been a conservative, or of having run the Leader as a conservative paper, and published an agreement made in '95, in which the following occurs: "Scott will * * * support with the paper he shall publish in Regina, and which shall be called the Leader, to the best of his ability, Davin and the conservative party generally." This brought out an open letter from Scott published in the Leader and Standard in which Scott says: "I gave [on conditions] your friends the Leader to be used as an organ to fight for your election." Let us see: Is this the same Leader and the same Scott who recently attempted to discredit two western liberal members of parliament opposed to railway monopoly, to which he also claims to be opposed? Has he been giving or lending or hiring his paper again? The Leader certainly has a most peculiar record for the chief western apostle of political consistency.

REGINA LEADER: "The fact appears to be that Mr. Oliver has been given so much praise and so little criticism in certain quarters throughout his pretty useful public career that even his hard head has become too large

for his hat. To quote that lamented classical authority, Joe Rymal, the Edmonton kicker would be perhaps none the worse of a "combing down." The Leader is right for once. The idea so elegantly expressed by it seems to have entered the alleged mind of its yokel, the Free Press a number of months ago. Since then first the Free Press and then the Leader have been trying their hand at "combing down" Mr. Oliver. So far as learned to date Mr. Oliver is "none the worse." Possibly the Free Press and Leader are not so fortunate.

FROM PEACE RIVER.

W. Pearce returned last week from a very interesting prospecting trip up Peace River to the junction of the Finlay and Parsnip, west of the Rocky Mountains. He was accompanied from Peace River Crossing by Digby Grimson. They were 21 days traveling from the Crossing to the mouth of the Finlay, which they reached on the 20th of September. They started back on October 1st, travelling both up and down by river. On the way up they found the body of the drowned prospector, Hinkle, on a bar about four miles above Fort St. John. They brought it down to St. John where it was fully identified, before burial. Proofs of death were sent to his relatives in the States. This was important, as there was a heavy insurance on his life. The body had floated 28 miles down the Peace below the mouth of Halfway river to where it was found. Had it not been found at that time the chances are it never would have been as a rise of water occurred that night that would have carried it off the bar and further down stream.

Some miners were at work on Moose bar about 50 miles below St. John when Mr. Pearce was going up, but shortly afterwards they moved up to near St. John, and before he came down all had given up work for the season, and scattered in different directions. The best wages Mr. Pearce heard of was on Moose bar, where one man was said to have made \$20 a week. This of course would not pay, considering the short season of work.

There is plenty of timber on the islands in Peace River for sawing purposes, and the navigation is good all the way from the Crossing to Hudson's Hope, about 250 miles. Above the Rocky mountain portage to the mouth of the Finlay the river passes through the Rocky mountains, and strange to say the navigation in this stretch is also good except at the Parle Pass rapids. This is a very short rapid and Mr. Pearce is confident that steamers could line up, as there is plenty of water. The Finlay rapid at the junction of the Finlay and Parsnip could also be ascended in the same way, although it is longer than the Parle Pass. Of course both rapids could be improved greatly by rocks being taken out. Mr. Pearce visited the Bradford Mining Co's locations on Mount Selwyn and found that a number of prospect holes had been sunk by the company last spring. The indications were excellent, there being a very large and well defined quartz ledge running for a very long distance. Messrs. Rockford and Ellis, of Grenfell, had also staked claims and done some prospecting. Mr. Rockford has gone out already and Mr. Ellis will be out shortly. Mr. Pearce is going back to Lesser Slave lake shortly to run his saw mill there this winter. There is good sawing timber to be had at the lake. The price of rough lumber is \$25 a thousand and planed lumber \$40. At Slave lake as well as at Peace River the crops were early and good. Larue & Picard had 1,500 bushels of oats on their farm at the lake. At Peace River mission the crops were ripe on Aug. 10th, and were saved in good condition. The gardens there at that time were as fine as Mr. Pearce ever saw. The product included cucumbers, tomatoes and green corn.

CHIEF FACTOR CHRISTIE DEAD.
Free Press, Oct. 25th.
Hon. W. J. Christie died last Sunday at Seely's Bay, Ont., aged 75 years. The deceased was born of Scottish parentage on the banks of Hudson's Bay, and in early life entered the service of the Hudson's Bay Company. He was stationed at York Factory and Norway House, eventually being made chief factor of the latter post. He was for many years a member of the first legislative council of the Northwest Territories. Retiring from the service of the Hudson's Bay Company over a quarter of a century ago, he removed to Brockville, where he resided until about six years ago, when he removed to Seely's Bay to take up his residence with his son, the late W. J. Christie, and where he deceased resided until his death. He married Mary C. Sinclair, daughter of the late Alexander Sinclair, who was also of the Hudson's Bay Company's service. Of their children Mrs. McTavish died in 1866, Dr. W. J. Christie in June last, and Miss Annie Christie of Murray Bay some years ago. He is survived by his widow and three sons, namely: John, of Fox River; James, of Moose Factory; and Charles, of Fort Simpson.

Mr. Christie was the Hudson's Bay Company's chief factor at Edmonton for many years, and is remembered by all the very old timers here.

YUKON RAILWAY.

As to the effect of the construction of the White Pass and Yukon railway on Canadian trade with the Yukon the Engineering Magazine, a United States publication has this to say:

"Another and more serious result of the completion of this railway to the summit is the inevitable diversion of a trade thus far almost exclusively in United States hands to Canadian points and houses. Last year the high duties imposed by the Canadians were fully offset by the extortionate charges made for bonding and conveying Canadian goods through the United States strip. This year the railway furnishes the bond for a nominal charge, and ships Canadian goods in bonded cars, delivering either at summit of pass, in British territory, or at Log Cabin or Bennett. It is not possible for United States merchants to stand 30% duty and also the Canadian custom house delays, annoyance, and extortions at Log Cabin. Last year United States made these annoyances an offset for a 30% duty, but hereafter the Canadians are protected by both duty and annoyances, and even if United States meats and hardware are taken to the Yukon they will enter Canada elsewhere and go through in bond."

LOCAL MARKETS.

Saturday was a lively market day in grain, especially in wheat. Sharp competition between the buyers for local and western milling purposes is the cause. The Bulletin is informed that up to 65c was bid for wheat for Strathcona delivery, but so far as learned no more than 60c was actually paid. The market opened at 52c but soon rose to 60c. Deliveries were very large, one buyer taking over 700 bushels. The quality was good.

The oat market was even livelier than wheat. Starting at 23c the price rose to 23 1/2, 24, 25c, and even 26c was paid. But whether the latter price was for feed or milling quality was not learned. Deliveries of oats were also large and the quality of the grain good.

Butter and eggs are still scarce at 20c for butter and 25c for eggs. Indeed the latter are almost out of market.

Potatoes 20c to 25c in fair supply. Coal is \$2.50 to \$3.00 a ton. A break to the lower price is in prospect.

WEATHER AND CROPS.

The weather since last issue has been cloudy and comparatively warm. The little snow of Thursday has all cleared off. Stacking and threshing have been going on steadily, the grain being reported generally in good condition. Stony Plain reports all stacked, but in the northeastern part of the district some stacking still remains.

Several farmers were plowing stubble on Stony Plain on Friday and Saturday last, Nov. 10th and 11th. A larger amount of fall plowing has been done than could have been expected.

The mild weather of the latter part of last week gave people another chance to get out their potatoes, so that it is likely very few have been left in the ground.

To day opened cloudy but not cold. It is now clear and warm.

THE HAGEL MURDER CASE.

The preliminary examination in the case of T. A. Quigley, accused of the murder of his brother-in-law, Nelson Hagel, was commenced at Red Deer on Wednesday at 3 p. m. before magistrate N. H. P. J. Nolan, of Calgary, appeared for the defence and A. L. Sifton, of Calgary, for the crown.

Mrs. Hagel, wife of the murdered man and sister of the prisoner, was the first witness. Her evidence was the same as at the coroner's inquest, except that she did not claim to have seen the fatal blow struck as she did at the inquest.

The evidence of Dr. Sharpe, who had made the post mortem examination, was the same as before. From his evidence there could be no doubt as to the cause of death.

J. McCue and Cook Myers were working at the Wolf Creek bridge on the day of the murder and saw the party in a wagon drive across the bridge towards the Indian reserve where the murder took place.

Constable Harlock told of the finding of the body.

Nelson Tice, livery man of Lacombe, gave evidence on the same subject.

Dr. Denovan, the coroner who conducted the inquest, also gave evidence.

This was as far as the case had progressed when the court adjourned at noon on Friday. There remained the important evidence of Sgt. Evans, of Red Deer, who had worked up the case, and the supplementary evidence of Mrs. Hagel, who was to be recalled.

The line taken by the defence was that the crime was not murder but manslaughter, and that the killing took place in the course of a scrap in which Hagel was the aggressor, a position which is rather supported by the story so far told by Mrs. Hagel.

The accused was committed for trial and was taken to Calgary where he will be held in custody in the police lockup until his trial. Mrs. Hagel has also been taken to Calgary.

TERRITORIAL GAZETTE.

Francois Adam of Duhamel has been gazetted a commissioner for taking affidavits.

The Nelson public school district (Lacombe town) has been authorized to borrow \$2,300 for the purpose of erecting a new school building.

Okotoks, Alberta, has come under the operations of the village ordinance.

The Qu'Appelle Felt and Boot Company has increased its capital stock from \$15,000 to \$30,000. The company proposes to manufacture yarn, blankets, cloth and woollen goods generally.

Tindastoll Butter and Cheese Manufacturing association has been incorporated under the dairy ordinance.

Eagle Creek school district, near Bowden, Alberta, will hold a tax sale on December 16th, 1899.

WEATHER AND CROPS.

Friday, Nov. 10th.

The fine weather of last and the beginning of the present week came to an end on Monday night. A shower of rain fell early on Tuesday morning and the weather has since remained cloudy. Tuesday was warm, but Wednesday, Thursday and Friday have been comparatively cold. A little snow fell last night. No ice has appeared in the river yet. The bulk of stacking in the district was finished before the rain of Tuesday and in some parts not enough rain fell to delay operations. But there is no doubt that in some cases stacking has been delayed. This morning's snow will delay it further. Some potatoes are still left in the ground, but on the whole the crop of both grain and roots is now safe.

CARLTON'S DISASTER.

The official roll call shows that 843 members of the Gloucestershire regiment and of the Irish Fusiliers are missing, as the result of the engagement on Farquhar's farm. Thirty-two members of the Gloucestershire regiment, ten members of the Royal Irish Fusiliers and two members of the Tenth mountain battery were found killed. Between 70 and 100 escaped and returned to Ladysmith, whither 150 wounded have been brought.

TERRITORIAL LAW SOCIETY.

The election of members of the Law society of the Northwest Territories took place on Nov. 6th, in Regina. The following were elected in the order given: N. D. Beck, Q. C., Edmonton; Norman MacKenzie, Regina; James McKay, Q. C., Prince Albert; W. C. Hamilton, Q. C., Regina; E. L. Elwood, Moosomin; Hon. J. A. Loughheed, Q. C., Calgary; C. F. P. Courybeare, Q. C., MacLeod; James Muir, Q. C., Calgary; Peter McCarthy, Q. C., Calgary.

MANITOBA GRAIN MARKETS.

The Commercial of Nov. 4th, speaks of the very fine weather of the week. The wheat market for the week shows a gradual decline in prices, amounting to 2c a bushel. The effect of the war in South Africa in strengthening the market seems to be quite spent. The cause of decline in price is favorable crop reports. On Friday, Nov. 3rd, wheat at Fort William was 67 1/2c for No. 1 hard, No. 2 hard and No. 1 northern have sold at 2 1/2c to 3c under No. 1 hard. No. 3 hard at 7c under No. 1 hard. Soured No. 1 hard is 53c at Port Arthur. Farmers' prices at Manitoba points are 54c to 55c. Chiefly 55c and 56c.

Deliveries of oats are getting heavier and prices are falling a little. Oats are not so uniformly good as it was expected they would be. Some poor samples of frosted oats and light, have been offered. Car lots at country points are worth 20c to 23c. No. 1 white oats on track in Winnipeg are worth 29 1/2c.

WAR NEWS BY MAIL.

Winnipeg papers of the 8th contain further particulars of the fighting at Ladysmith on the 2nd. There seems to be no question as to the British successes. A Durban despatch of the 5th says: A native eye witness of Thursday's battle near Ladysmith says the Boers were caught in the open ground and raised several white flags. The British then advanced without firing to accept the surrender of the Boers, but were received with a volley at close range. Enraged at this treachery the lancers, hussars and dragoons, followed by the infantry with fixed bayonets, charged through and through the enemy and did great execution. A lot of prisoners and a lot were captured. Another battle was proceeding on Friday with a similar result.

It appears, according to special dispatches from Estcourt the Boers on Thursday asked a day's armistice. General White agreed to this on condition that they would make no movement. The British military balloon, however, detected the Boers massing to the south and General White thereupon renewed the attack.

Boer reports have reached Cape Town to the effect that on the arrival at Johannesburg of the news of the Boer reverse at Elandslaagte the whole Rand special police force was sent to the front with guns from Johannesburg, for the fortress being left without a gun, and a garrison of twenty men.

A despatch from Lorenzo Marques, of Nov. 2nd, says: Five bodies of Boers, totalling 4,000 men, with field guns, are concentrated at Bethulle Bridge. They have collected much food. Bethulle Bridge is on the Cape Colony border west of Alwal North.

METEOROLOGICAL.

The following temperatures are reported from the Dominion government observatory at Edmonton, for the dates given: November.

	Max.	Min.
Monday, 6,	46	25
Tuesday, 7,	46	25
Wednesday, 8,	42	28
Thursday, 9,	39	20

South of Hudson's Bay Store.

BEE KEEPING.

The past summer has not been very successful in honey production, owing to the continued wet weather, which prevented the bees from working and no doubt reduced the honey production of the flowers. Thos. Henderson of Rabbit Hill, the pioneer bee keeper in this district only secured 600 pounds of honey from 40 hives. The bees worked until late in the season however, that is until the golden rod, our most abundant honey bearing fall flower, was killed by frost late in September.

About 30 new swarms were secured and the bees will go into the winter in good shape.

Only two swarms were lost last winter out of a total of about 45. But several were lost by dwindling in the spring.

Mr. Henderson has kept bees in this district since 1888.

WAR NEWS BY MAIL.

The Winnipeg papers of Monday last contain no further news regarding the principal events of the war than have already appeared in the BULLETIN. The fight of Bester's hill or Latham's farm on Thursday, Nov. 2nd, is reported, and a rumor given of the fight at Colenso on Friday.

Carlton's column lost 6 officers and 54 men killed and 9 officers and 231 men wounded before surrendering. Three hundred out of a total of less than 900 shows bloody work. There is no news from Mafeking. All was quiet in Rhodesia, and it was believed that the small parties of Boer raiders had been withdrawn to assist at Kimberley or Ladysmith. It was surmised that the same thing had occurred at Mafeking.

A column of 4,000 Boers was said to be advancing into Natal through Zululand, now British Territory, with a view of aiding in the expected Boer attack on Pietermaritzburg after Ladysmith had been captured. But there was nothing very definite regarding it.

Preparations were evidently being made to attack Kimberley in force, but as yet the attack had not been made.

An invasion of Cape Colony from the Orange Free State was being made from three points on the Orange river touched or crossed by the railways. The positions in Cape Colony that were threatened were Colesburg, Stormburg and Burgers Drup. It was reported that Colesburg had been occupied by the Boers. These points are on the lines of railway by which it was expected Gen. Buller would advance on the Free State. The Boer advance was for the double purpose of forestalling Buller, and inducing more active co-operation by the Boers of Cape Colony, whose inaction at home has so far been disappointing to the hostile republics. De Aar junction on the Cape Town and Rhodesia line, about 60 miles south of the Orange river and about the same distance west of Colesburg, is occupied by 2,000 British troops, and is being made a British military base for the relief of Kimberley.

Continental European feeling is more bitter than ever against the British, and reports of British reverses are made the most of, but so far no one seems willing to join the Boers in their quarrel.

STRATHCONA.

Douglas Bros. have moved into their new store in the Walter block. Wheat worth 60c. Oats 25c. Considerable offering.

An assembly dance will be held in Roes' Hall on Tuesday evening next. The Fort Saskatchewan orchestra will supply the music.

Messrs. Moreault & Boudreau are finishing their new store on Whyte avenue with metal sheeting, which when completed, will give it the appearance of a stone building.

Messrs. Gainer & Ritchie have opened a grain and produce business in Edmonton. W. Armstrong is manager of the firm.

WETASKIWIN.

Mr. Kirkpatrick, manager of the Imperial Bank, Edmonton, and Mr. Wilson, manager at Strathcona, paid a visit here a day or two ago. It is almost now a certainty that a branch of the bank will be opened in this village in a very short time. The district is in a very promising condition. All prospects seem bright. The bank has chosen an opportune time to commence operations.

The new mill is progressing; at the same time an extra span should be put on as threshing is far advanced and wheat is beginning to come in.

The government ought really to do something for the roads in this section. The main trail to Edmonton between this point and Leduc is simply a disgrace. Some of the holes are absolutely dangerous, and the corduroy is ripped up and useless. Then again take the bridge over the Pipestone on the Bittern lake trail, it has collapsed in the centre. That it does not go down is simply a miracle. If it were removed as it is, and sent to the Paris exhibition it would certainly draw attention to this section. To-day we had a splendid mirage to the south, a complete range of hills appeared, which extended for miles.

LEDUC AND WETASKIWIN.

Alberta Sun.

W. G. Dickson, at one time of the real estate firm of Wilkie & Dickson, Strathcona, but more lately of Nelson, has gone to South Africa with the British Columbia contingent.

S. A. Durdle, of Leduc, formerly of Edmonton, will give exhibitions of fancy skating along the line between Calgary and Edmonton this winter.

W. H. Harkness is shipping nine car loads of steers from Wetaskiwin and four from Lacombe. They were bought chiefly around Leduc and Edmonton.

Last week 25 entries for land were made around Wetaskiwin.

John E. Forslund, C. P. R. immigration agent, came up from Winnipeg last week.

Wetaskiwin creamery is to be kept running all winter.

The Sun objects to the prospective withdrawal of the police detachment from Wetaskiwin.
